GOSSAMER-3 sail observation payload wish list
- sensor to observe large area foil reflectivity ageing, e.g. by thermal equilibrium
- sensor to observe small-scale mechanisms of long-term foil ageing
- sensor to observe solar and wind field on sail
- sensor to observe plasma, particle and energetic radiation environment
- sensor to observe temperature and pressure on sail surface
- sensor to observe dynamic interactions with solar wind
- sensor to observe large area foil reflectivity ageing, e.g. by thermal equilibrium
- sensor to observe small-scale mechanisms of long-term foil ageing
- sensor to observe solar and wind field on sail
- sensor to observe plasma, particle and energetic radiation environment
- sensor to observe temperature and pressure on sail surface
- sensor to observe dynamic interactions with solar wind
