Knowledge for Tomorrow

Evaluation of good-practice projects in Europe

- Redistribution of public space in favor for active modes / quality of stay
- Use of various available data, expert interviews
- Present successes of pioneers
- **What do successful projects have in common?**

Pop-up infrastructure made permanent in Berlin

**Vision
pays off**

**Timing and
context matter**

**Temporarily and
step by step to
success**

**Participation is a
key to success**

**Legal
options are
available**

**Local economy
often benefits**

**Evaluation is
marketing**

**Satisfaction increases
with implementation**

**Don't hide
challenges /
downsides**
